Hi, welcome at the Lübecker Museum of Theatre Puppets. This is one of the largest opf its kind of the entire world. Besides Punch, or Hansel and Gretel, you´ll find many other interesting figures from different countries when you walk through the museum.

If you feel like it, you can also win something at the end of this tour. You only have to pay attention and look closely, in order to answer the following questions. Please write your answers on the lines below each question. With some questions, there are several possible answers. In these cases you only have to choose and mark the right one. Here we go!

1. Immediately in the first room of the museum, you´ll find several puppets that are allegedly able to speak. Of course you know puppets can´t talk. The talking is actually done by the circus artist who is holding the puppet. He does this however, without moving his lips. **What do we call such a circus artist?**

   What are these puppets called?
